Inspiration and detailed views

01

Product idea.

# Robust versatility in any case.

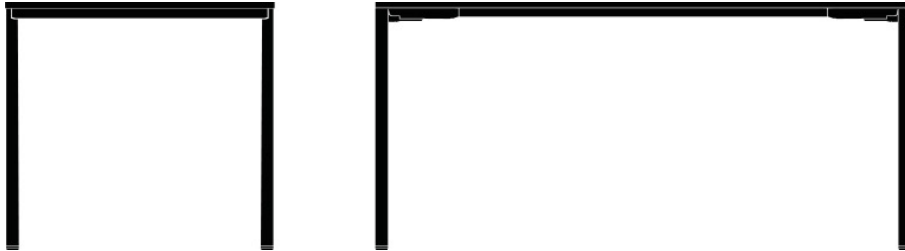

- Design-oriented 4-legged folding table
- Narrow, nearly hidden traverse under-frame with concealed folding mechanism enables especially thin table tops to be used
- Practical one hand mechanism: can be opened up without turning the lever, with integrated fail-safe mechanism
- Discreet stacking buffers lift automatically during opening
- Clear concept and high quality in terms of material and workmanship
- Especially thin, chromed round-section tube legs
